The Elst anniversary of the Strangers' Friend Society was held on Friday last, at the residence of the President of the Society, Mrs. S. C. Damon, at which the reports of the Socretary and Treasurer were presented, and other business transacted. The receipts for the year past were \$468, and the expenditures \$429. The Secretary reported that fifteen persons or families had received relief, mostly straugers in needy circumstances, who have no claim on the American, British, or German benevolent societies. In the evening, His Majesty the King honored the ladies of the Society with his presence, thus evincing an interest in the objects for which it was instituted.

Empty casks were placed under the vessel, so that when hove down, her keel was raised two or three feet clear of the water, enabling the workmen to finish the Job at one operation. While she was hove down, we found barnacles on her keel two inches in length, and as solid as coral. It is a wonder that she made as good time as she did in her trips. She ought to be hove out at least once in every two years. She will leave on Friday for Nawiliwili, as per her timetable, in charge of Capt. David Taylor, who has been placed in command of her.

FOLLOW MAURY'S DESCRICTIONS .- Capt. Flynn of the ship Wm. Tapscott, lately here, told us he always followed Maury's sailing directions, and as a result invariably made the shortest passage of any vessels passing over the route about the same time, especially if they did not follow Maury. He left S Francisco April 23, and the first day out his ship ran 298 days: from there to lat 10° in the Pacific was firth-two days | miles' and he made the passage in twelve days and with a constant succession of gales from W to NW with very twenty hours. This is nothing unusual to be sure; but let us compare it with the passages of other vesport, making the passage in 180 days. Is lat 55° 50° S, long sailed from San Francisco the same day, and reported twenty days passage to Honolulu. Bark Clara ing a gase at the time with a loga sea ranning; did not miss

5 Quarter Casks Fine Pale Sherry,
5 Quarter Casks Shamrock Old Irish Whiskey. This remarkable Pump, though having been used extensively in the Western States for the past year, is now for the first time effect to the trade of the facility.

It is adapted to the trade of the facility.

It is adapted to the traising of water or other liquids, under all possible conditions where steam on be obtained, operating absolutely without machinery with more economy and loss liability to derangement than any pump in use. As a MINING PUMP its advantages are most obvious.

The steam is condetesed instead of being exhausted into the shaft or tunnel. It is not affected by mud, sand or grit, having no working next sto wear or cut out. Also, on Hand and for Sale, Fire Bricks, Fire Clay, Blacksmiths' Coal, White Lead, White Zine, Newcastle Grindsto Sherry in Quarter Cacks and Cases, Superior Australian Wine, Case Gin, Baskets Gin, Case Brandy, Case Whiskey, shaft or tunnel. It is not affected by mud, sand or grit, having no working parts to wear or cut out.

It is economical of steam, because all friction is avoided,
and the steam is made to the decide duty, that of direct pressure and then by condomation, utilizing the atmospheric
pressure to lift the water to the Panap.

It requires no intrinciation nor any attention whatever.

For IRRIGATION and raising water for stock purposes,
the Prail Panap is vastly superior to anything ever before invented. Soutch Whiskey, in quarter casks.
